CATALOGUE

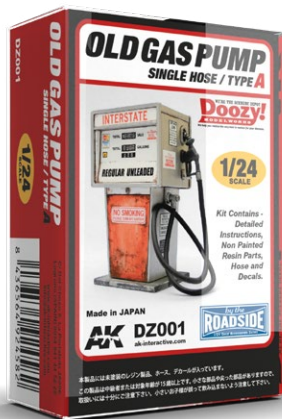

American subjects are fascinating not only for Americans. American TV series have proven very popular with audiences in many countries. In 1970s and 1980s, a lot of American TV series such as "McCloud", "The Rockford Files", "Starsky and Hutch", "The A-Team", "CHiPs", etc., were broadcasted all around the world, also increasing the interest in U.S. landscapes, streets, houses, and cars amongst modelers. The 1/24 scale is the perfect size for civil modeling, and Mr. Yasuhiro Okugawa founded Doozy Modelworks many years ago to manufacture accessories in this scale, focusing on subject with the American flavor. Now AK-Interactive continues his work, offering both his classic creations and newly developed items under the Doozy label. All the products are now produced in Europe. If you want to represent the essence of America in 1/24 scale, this is your brand!

867/5000

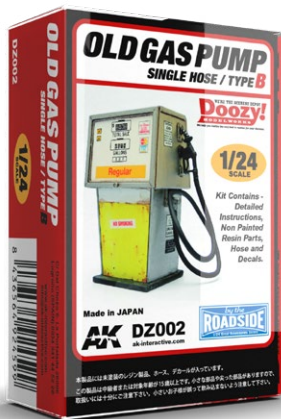

Los temas americanos son fascinantes no solo para los estadounidenses. Las series de televisión americanas han demostrado ser muy populares entre el público en muchos países. En los años 70 y 80, muchas series de televisión estadounidenses como "McCloud", "The Rockford Files", "Starsky and Hutch", "The A-Team", "CHiPs", etc., se emitieron en todo el mundo. También aumenta el interés en los paisajes, calles, casas y automóviles de los Estados Unidos entre los modelistas.

La escala 1/24 es el tamaño perfecto para el modelado civil, y el Sr. Yasuhiro Okugawa fundó Doozy Modelworks hace muchos años para fabricar accesorios en esta escala, centrándose en el tema con el sabor americano. Ahora AK-Interactive continúa su trabajo, ofreciendo tanto sus creaciones clásicas como artículos recientemente desarrollados bajo la etiqueta Doozy. Todos los productos se producen ahora en Europa. Si quieres representar la esencia de América en escala 1/24, esta es tu marca!
