COMPATIBLE

ONLY FOR NINCO ANALOGUE TRACKS

TWO WAYS

BOTH DIRECTIONS

WIRELESS SLOT RACING

With the new kit WI-CO you will see SLOT from another perspective. You are no longer tied to the controller cable! Goodbye tangled wires! Move around the track freely, you no longer need help putting the car back on if you come off the track, you can now move around without releasing the controller and continue driving simultaneously.

WI-CO come with the latest 2.4 Ghz technology, a proprietary system of radio control racing, without any interference and with excellent scope. You can use it with any NINCO analogue track and as always, with any car of any brand. WI-CO comes with the added advantage that you can also change direction and choose from two driving levels: for beginners or experts.

EXTENSION KITS

ANALOGUE ACCESSORIES

UNIVERSAL ACCESSORIES

COMPATIBLE

Slot racing was not invented yesterday and bearing in mind slot fans from all over the world, N-Digital stands for continuity and not a break from the norm. All cars can be digitalized, as can any set with any type of surface, and up to 10 lanes.

REVERSIBLE

Total flexibility to change from analogue to digital. The compatibility of cars and track is fully reversible, and changing from one system to another is very easy. Just by adding or removing 2 track pieces and the digital chips inside the cars.

EXTENDIBLE

N-Digital is extendible thanks to its compatibility with the entire analogue range of accessories and digital kit accessories, which offer a wider choice of fun and features in all race modes offered by the digital console.

LANE CHANGING

N-Digital offers a new concept for slot racing allowing overtaking and selection of the best racing line in corners, total freedom of decision of the driver who chooses on which lane he wants to run.

FROM 1 TO 8 CARS

N-DIGITAL is the only system on the market that allows up to 8 racers at any one time. The 2 lane track takes on a whole new dimension, more cars where before only 2 could race, more racers in the same space.

DIFFERENT RACE MODES

The multifunction console offers 7 different race modes.

- GP Grand Prix – speed racing in laps
- WR World Rally, individual race times
- FL Fastest Lap, looking for Pole Position
- NS Non Stop endurance racing
- PS Pit Stop endurance with Pit strategy
- AG Arcade group, eliminator race
- AS Arcade Single, Individual racing against the console.

REF 40304

CHIP DECODER
Adapts any NINCO analogue car to N-Digital.

MASTER TRACK 14,28m / 46' 10"

REF 40104

EAN 8428064401045

2,67m x 1,48m

REF 40202

DIGITAL KIT
Converts any analogue track to digital, contains 2 x lane changer pieces and 3 x chips to digitalize.

REF 40207

DOUBLE LANE CHANGER
Choose the best racing line or overtake.

REF 40206

MULTILANE SENSOR
Necessary to control the finish line in circuits of more than 2 lanes. Every 2 new lanes, 1 x new sensor piece is required. In the case of 2 or more multilane sensors, ref 40306 multi-connector is necessary.

REF 40204

MULTILANE KIT
To make digital tracks of 4-6-8 and 10 lanes, allows passage from lane 2 to 3, 4 to 5, 6 to 7 and 8 to 9. Any one track will allow various multilane kits.

REF 40203

PIT LANE KIT
Add strategy to the competition with pit stops to add fuel, only available in PS mode. Connected via cable to the console.

REF 40205

CONTROL TOWER
Informs of positions and laps during the race, indicates the position of up to 8 cars, 360° flexibility so it can be seen from any part of the track, possibility to add more than one tower per track.

REF 40208

LANE CHANGE IN CURVE
Choose the best racing line or overtake in the curve. Works in both directions.

REF 40301

REF 40307

N-DIGITAL CONTROLLER
Vibrating pulse informs of fastest lap, last lap and when a pit stop is necessary.

PROGRESSIVE CONTROLLER
Controller with adjustable delivery of power, Vibrating pulse informs of fastest lap, last lap and when a pit stop is necessary.

REF 40303

REF 40306

REF 40305

TRANSFORMER
14V 3A The only transformer valid for N-Digital.

MULTICONNECTOR
To connect more than 1 accessory.

CONTROLLER EXTENSION CABLE
2.5M of extended cable.

NINCO® NEW LAUNCH 2012

NINCO 1

The ideal brand to get the most from your home track layouts. Cars designed to run on domestic circuits with magnet effect, mechanical simplicity and impact-resistant models.

N-DIGITAL

Most models are available in analogue and digital. The N-Digital cars are equipped as standard with the digital chip for up to 8 cars to compete on the traditional 2-lane track.

NINCO 5

Quality and performance with nearly 20 years of worldwide recognition. Replicas of the best international cars with a range of optional parts for being the driver and mechanic of the car of your dreams.

LANCIA 037
S

LIGHTNING

The range has established itself as the brand of NINCO pro-drivers. Cars equipped with competition spec material, come as standard with all the mechanical advances, ready for the most demanding racers.

PRO RALLY NEW

REF NH93031 Red
EAN 848064930316

REF NH93032 Blue
EAN 848064930323

1/14
Battery & Charger included
7,2V / 1.100mAh
Brushed RC 370 / ESC W/R

VOLKAN NEW

REF NH93024 BS
EAN 848064930248
Brushless 4.300KV / ESC 25A

REF NH93023 BD
EAN 848064930231
Brushed RC 380 / ESC W/R

1/16
Battery & Charger included
7,2V / 1.100mAh

DOT

REF NH93016 BS
EAN 848064930163
Brushless 4.300KV / ESC 25A

REF NH93007 BD
EAN 848064930071
Brushed RC 380 / ESC W/R

1/16
Battery & Charger included
7,2V / 1.100mAh

MERCEDES

REF NH93030 BS
EAN 848064930309
Brushless 4.300KV / ESC 25A

REF NH93029 BD
EAN 848064930293
Brushed RC 380 / ESC W/R

1/16
Battery & Charger included
7,2V / 1.100mAh

MEGANE

REF NH93005 BS
EAN 848064930057
Brushless 3.300KV / ESC 75A

REF NH93012 BD
EAN 848064930125
Brushed RC 540 / ESC W/R

1/10
Battery & Charger included
7,2V / 1.800mAh

MERCEDES

REF NH93028 BS
EAN 848064930286
Brushless 3.300KV / ESC 75A

REF NH93027 BD
EAN 848064930279
