WOS

Wireless Overtaking System

**RACE
AS NEVER
BEFORE**

THE REVOLUTION HAS COME TO SCX

A new technological generation joins the SCX family: the WOS generation. The most advanced SCX gaming system with which you will be able to enjoy competing with new and better additions. With this new technology to be applied to SCX WOS circuits, cars and accessories, you will be able to compete using wireless controllers with a radio frequency of 2.4 GHz, hear the sound of the competition as if you were at a real life circuit, control acceleration, braking and fuel load to your liking, compete against a ghost car and have a safety car on the circuit, both controlled by the system, refuel in the pit lane and much more.

The SCX WOS controllers allow you to control several aspects of races. The controllers, which are powered by rechargeable batteries and have LED lights, synchronise individually with their corresponding cars, and allow you to set up to five levels of acceleration and braking, turn the race car's front headlights and rear brake lights on and off and play car sounds.

LA RÉVOLUTION EST ARRIVÉE CHEZ SCX

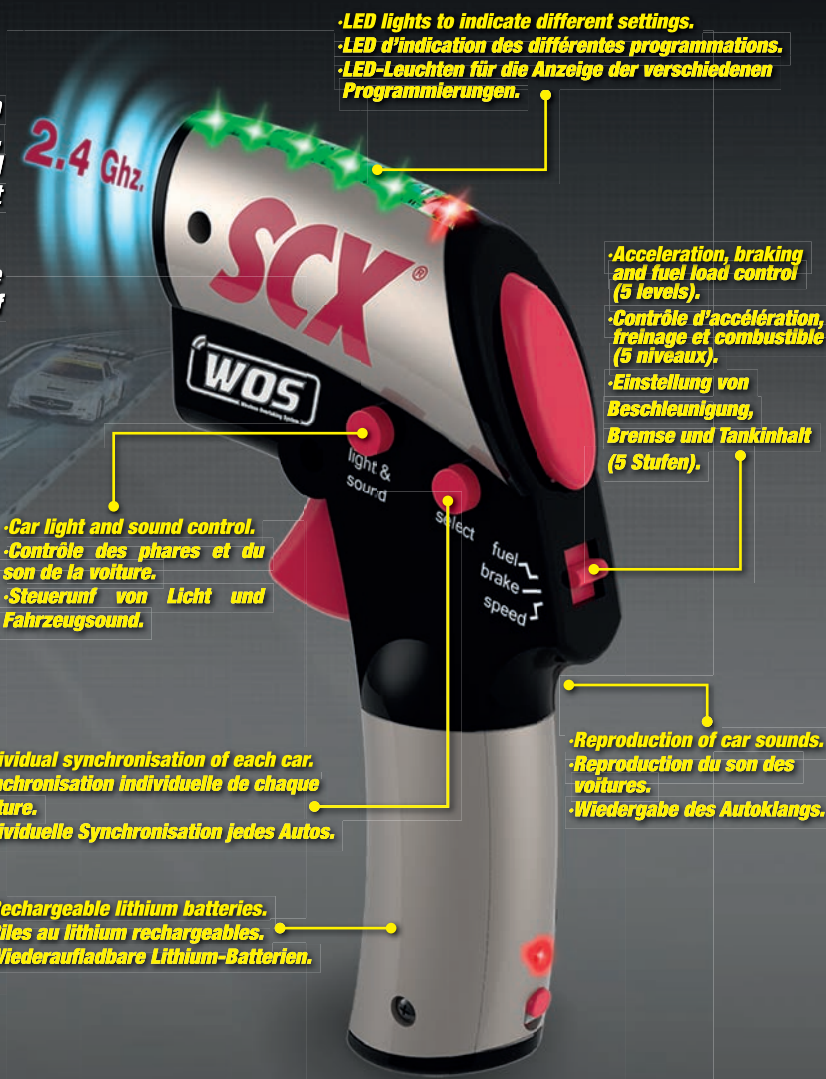

Une nouvelle génération SCX est arrivée: la génération WOS. Le système de jeu SCX le plus avancé, avec lequel tu pourras profiter de la compétition avec de nouveaux et de plus grands défis. Avec cette nouvelle technologie qui sera appliquée aux circuits, aux voitures et aux accessoires SCX WOS, tu pourras jouer avec des télécommandes sans fil par radiofréquence de 2,4 Ghz., écouter le son de la compétition comme si tu étais sur un circuit réel, régler comme tu voudras l'accélération, le freinage et le ravitaillement en combustible, tu joueras contre une voiture fantôme et un safety car contrôlés par le système, tu feras le plein d'essence sur la pit lane et bien plus.

Avec la télécommande SCX WOS, tu pourras contrôler différents aspects des courses. Chaque télécommande, fonctionnant avec des piles rechargeables et équipée de lampes LED, se synchronise individuellement avec sa voiture correspondante et te permettra de définir jusqu'à cinq niveaux d'accélération et de freinage, d'allumer ou éteindre les feux avant, arrière et de stop des bolides et de reproduire le son des voiture.

DIE REVOLUTION ERREICHT SCX

Eine neue technische Revolution erreicht SCX: die Generation WOS. Das aktuellste Spielsystem von SCX, mit dem Sie mit neuen und größeren Anreizen den Wettbewerb genießen können. Mit dieser neuen, für alle Rennstrecken, Autos und Zubehör von SCX WOS geltenden Technik können Sie mit kabellosen Steuerungen über die Funkfrequenz 2,4 GHz, hören Sie den Klang des Wettbewerbers als ob Sie tatsächlich an der Rennstrecke wären, regeln Beschleunigung, Bremse und Betankung ganz nach Wunsch, fahren gegen ein Geisterauto und ein Safety Car, die vom System gesteuert werden, tanken Kraftstoff in der Boxengasse nach und vieles mehr.

Über die Fernbedienung von SCX WOS können Sie verschiedene Aspekte der Rennen steuern. Jede Fernbedienung, von denen jede mit wiederaufladbaren Batterien funktioniert und mit LED-Leuchten ausgestattet ist, synchronisiert sich individuell mit ihrem jeweiligen Wagen. Mit ihr können Sie bis zu fünf Beschleunigungs- und Bremsstufen festlegen, die Front- und Rücklichter ein- und ausschalten sowie das Bremsen der Boliden einstellen und den eigenen Sound der Wagen wiedergeben.
